During a review of the data sheets for the below-listed antennas, KP Performance Antennas determined that there could be inconsistencies between the actual and stated performance. The parameters impacted are between 2.3 to 2.4 GHz and 2.5 to 2.7 GHz. KP is updating the datasheets of these products accordingly.

Part Numbers	
KP-23DOMNI-HV	KP-2DP120S-45-WC
KP-25DOMNI-HV	KPPA-2GHZ-DPOMA-WC-3
KP-2DP120S-45	This space intentionally left blank.

No action is needed if you have not experienced functional issues with your current radio/antenna setup. If you have, please reach out to customer service. If not, no action is needed. KP Performance Antennas appreciates your business and looks forward to serving you in the future.
